

## § 301.45-2

person acting under the instructions of a qualified certified applicator who is available if and when needed, even though such qualified certified applicator is not physically present at the time and place the inspection or treatment occurred.

[58 FR 39423, July 23, 1993, as amended at 59 FR 67608, Dec. 30, 1994; 67 FR 8464, Feb. 25, 2002]

### § 301.45-2 Authorization to designate and terminate designation of generally infested areas.

(a) Generally infested areas. The Administrator shall list as generally infested areas in § 301.45-3 each State or each portion thereof in which a gypsy moth general infestation has been found by an inspector, or each portion of a State which the Administrator deems necessary to regulate because of its proximity to infestation or its inseparability for quarantine enforcement purposes from infested localities; Except that, an area shall not be listed as a generally infested area if the Administrator has determined that:

(1) The area is subject to a gypsy moth eradication program conducted by the Federal government or a State government in accordance with the Integrated Pest Management (IPM) alternative of the Final Environmental Impact Statement (FEIS) on Gypsy Moth Suppression and Eradication Projects that was filed with the United States Environmental Protection Agency on March 18, 1985; and

(2) State or Federal delimiting trapping surveys conducted in accordance with Section II, "Survey Procedures—Gypsy Moth" of the Gypsy Moth Treatment Manual show that the average number of gypsy moths caught per trap is less than 10 and that the trapping surveys show that the eradication program is effectively diminishing the gypsy moth population of the area.

(b) Less than an entire State will be designated as a generally infested area only if the Administrator has determined that:

(1) The State has adopted and is enforcing a quarantine or regulation which imposes restrictions on the intrastate movement of the regulated articles which are substantially the same as those which are imposed with

## 7 CFR Ch. III (1-1-05 Edition)

respect to the interstate movement of such articles under this subpart; and,

(2) The designation of less than the entire State as a generally infested area will be adequate to prevent the artificial interstate spread of infestations of the gypsy moth.

(c) Temporary designation of areas as generally infested areas. The Administrator or an inspector may temporarily designate any area in any State as a generally infested area in accordance with the criteria specified in paragraph (a) of this section. An inspector will give written notice of the designation to the owner or person in possession of the area and thereafter, the interstate movement of any regulated article from such areas is subject to the applicable provisions of this subpart. As soon as practicable, each generally infested area will be added to the list in § 301.45-3 or the designation will be terminated by the Administrator or an authorized inspector, and notice thereof shall be given to the owner or person in possession of the areas.

(d) Termination of designation as a generally infested area. The Administrator shall terminate the designation of any area as a generally infested area whenever the Administrator determines that the area no longer requires designation under the criteria specified in paragraph (a) of this section.

### § 301.45-3 Generally infested areas.

(a) The areas described below are designated as generally infested areas:

#### CONNECTICUT

The entire State.

#### DELAWARE

The entire State.

#### DISTRICT OF COLUMBIA

The entire district.

#### ILLINOIS

*Lake County.* The entire county.

#### INDIANA

*Allen County.* The entire county.

*De Kalb County.* The entire county.

*Elkhart County.* The entire county.

*LaGrange County.* The entire county.

*Noble County.* The entire county.
